Maize/Mielies	408 000	675 000	456 900	675 090	-0,01

The area planted to maize in the non-commercial agricultural sector is estimated at 408 000 ha, which represents a decrease of 10,70% compared to the 456 900 ha of the previous season. The expected maize crop for this sector is 675 000 tons, which is more or less the same than the 675 090 tons of last season. It is important to note that about 55% of the maize produced in the non-commercial sector, is planted in the Eastern Cape.

Die oppervlakte beplant met mielies in die nie-kommersiële landbou-sektor word geskat op 408 000 ha, wat 'n afname van 10,70 % verteenwoordig in vergelyking met die 456 900 ha van die vorige seisoen. Die verwagte mielie-oes van dié sektor is 675 000 ton, wat min of meer dieselfde is as die 675 090 ton van die vorige seisoen. Dit is belangrik om daarop te let dat ongeveer 55% van die mielies wat geproduseer word in die nie-kommersiële sektor, in die Oos-Kaap geplant word.

**PRELIMINARY AREA ESTIMATE OF WINTER CROPS (2014) /
VOORLOPIGE OPPERVLAKTEKSKATTING VAN WINTERGEWASSE (2014)
29 JULY/ 29 JULIE 2014**

Winter cereal crops - 2014 production season

The preliminary area estimate is based on the results of a non-probability survey conducted by the Directorate: Statistics and Economic Analysis and reflects the position as at the middle of July 2014, as well as inputs from the PDA representatives. Please note that the information from the Producer Independent Crop Estimation System (PICES) as conducted by the National Crop Statistics Consortium (NCSC) for the Western Cape province will be available in August 2014; and for the Free State in September 2014.

Wheat: The preliminary area estimate for wheat is 484 000 ha, which is 4,25% or 21 500 ha less than the 505 500 ha planted for the previous season. On record, this is the smallest area planted to wheat. The decrease in the expected planting of wheat can mainly be attributed to farmers that are expected to plant more oilseeds like soybeans at the expense of wheat, low prices (no longer profitable), as well as inadequate soil moisture levels in some of the northern producing areas.

An estimated 315 000 ha is planted in the Western Cape, which is 5 000 ha more than the 310 000 ha planted for the previous season. In the Free State, 70 000 ha is planted, which is 20 000 ha less than the 90 000 ha planted for the previous season. The area planted in the Northern Cape is 38 000 ha, which is 4 000 ha less than the 42 000 ha for the previous season.

Other crops: The preliminary area estimate for malting barley is 83 525 ha, which is 2,71% or 2 205 ha less than the 81 320 ha of last season. The area planted to canola is 85 000 ha, which is 17,79% or 12 835 ha more than the 72 165 ha planted for the previous season. On record, this is the largest area planted to canola.

Please note that the revised area planted estimate and first production forecast for winter cereals for 2014 will be released on 27 August 2014.

Wintergewasse - 2014 produksie-seisoen

Die voorlopige oppervlakeskattings is gebaseer op die resultate van 'n nie-ewekansige opname onderneem deur die Direktooraat: Statistiek en Ekonomiese Analise en weerspieël die situasie teen die middel van Julie 2014, sowel as insette van die PDL verteenwoordigers. Let wel, inligting van die Producente Onafhanklike Oesskattingsstelsel ("PICES"), soos deur die Nasionale Oesskattingskonsortium gerapporteer vir die Wes-Kaap provinsie, sal in Augustus 2014 gerapporteer word en vir die Vrystaat in September 2014.

Koring: Die voorlopige skatting van die oppervlakte onder koring beloop 484 000 ha, wat 4,25% of 21 500 ha minder is as die 505 500 ha wat verlede seisoen aangeplant is. Volgens rekords, is dit die kleinste oppervlakte beplant met koring. Die afname in die verwagte aanplantings van koring kan hoofsaaklik toegeskryf word aan die verwagting dat produsente meer oliesade soos sojabone gaan plant ten koste van koring, lae pryse (nie meer winsgewend), asook onvoldoende grondvogvlakke in sekere van die noordelike produksiegebiede.

Die beraamde oppervlakte beplant in die Wes-Kaap is 315 000 ha, wat 5 000 ha meer is as die 310 000 ha wat verlede seisoen aangeplant is. Vir die Vrystaat is die aanplantings 70 000 ha, wat 20 000 ha minder is as die 90 000 ha wat verlede seisoen aangeplant is. Die oppervlakte beplant in die Noord-Kaap is 38 000 ha, wat 4 000 ha minder is as die 42 000 ha wat die vorige seisoen aangeplant is.

Ander gewasse: Die voorlopige oppervlakeskattings vir moutgars is 83 525 ha, wat 2,71% of 2 205 ha minder is as die 81 320 ha van verlede seisoen. Die oppervlakte onder kanola is 85 000 ha, wat 17,79% of 12 835 ha meer is as die 72 165 ha wat verlede seisoen aangeplant is. Volgens rekords, is dit die grootste oppervlakte beplant met kanola.

Neem asseblief kennis dat die hersiene oppervlakte beplant en eerste produksieskattings vir wintergewasse vir 2014 op 27 Augustus 2014 vrygestel sal word.
