			SL-OIC 1	SL-OIC 2	SL-OIC 3	SL-OIC 4	SL-OIC 5	

Conditions for issuance of OIC sub-lots:

- An OIC may be issued, without further sampling or testing, for a portion (sub-lot) of a seed lot which has been sampled and tested, and for which an OIC has already been issued.
- The certificate for the sub-lot must carry the same test results as reported for the original seed lot.
- The sub-lot must represent a minimum size of 20% of the weight of the original seed lot.
- A maximum of five OIC's may be issued for sub-lots of any one original seed lot.
- The accredited laboratory must keep track of the issuance of sub-lot certificates.
- In the case of certificates for sub-lots, a remark will be reported on the OIC 'The results reported represent the sample drawn from the original seed lot of ….. kg.'
- If a sub-lot is re-sampled it becomes a new seed lot and must be given a new seed lot identification number.
