Gids tot die volhoubare produksie van weiding deur Hennie Snyman

Die boek bevat die nuutste inligting oor onder andere die ekologiese benadering tot weiveldbenutting deur vee en wild, nuutste veldbestuurspraktyke, veeverhoudings, brand van weiveld, veldrestourasie, wildboerdery se moest en moenies, oplossings vir probleem- en indringerplante, en alle aspekte oor die verbouing en benutting van aangeplante weidings, voorgewasse vir droogtye, asook probleme met die benutting van weidings. Die boek is 'n moet vir elke vee- en wildboer om volhoubare benutting van weiveld en aangeplante weidings te verseker. **Vir verdere inligting of bestelling.**
